

## **Costs and Charges**

### **Professional clients**

This document on Costs and Charges is effective from April 2026 and shall remain effective until a more recent version is released. Finalto EU Ltd reserves the right to amend or supplement this document at any time. This document does not replace our Standard Terms of Business which we ask that you read carefully before you enter any trading activity. This document applies solely to relationship with clients categorised as professionals (per se or electives). The prevailing version of this document is always available on our website [www.finalto.com/eu](http://www.finalto.com/eu)

Service available to professional clients only. CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money. Our offering includes products that are traded on margin and carry a high degree of risk to your capital. By trading, you may sustain a loss of some or all of your invested capital, therefore, you should not speculate with capital that you cannot afford to lose. It is possible to incur losses that exceed your initial investment. You should ensure you fully understand the risks involved and seek independent advice if necessary. You should be aware of all the risks associated with trading on margin. FX, Spread Bets and CFDs are provided by Finalto Financial Services Limited on an execution only basis; we do not provide any advice nor should any communication with us, either written or oral, be construed as such.

Finalto EU Ltd is authorised and regulated by the Cyprus Securities and Exchange Commission (CySEC), license number 264/15. Finalto EU is incorporated in the Republic of Cyprus under company number HE332334 and is located at 148 Strovolos Avenue, 2048, Strovolos, P.O.Box28132, Nicosia, Cyprus.

## 1. INTRODUCTION

Finalto EU Ltd (“Finalto EU”, the “Company”, “we” or “us”) is regulated investment services firm, authorized in the conduct of its activities by the Cyprus Securities and Exchange Commission (CySEC) under registration number HE332334.

## 2. PURPOSE

This document aims to serve as a general guide in reference to the costs and charges associated with our products, and includes the formulas applied to the calculation of our charges as well as worked examples.

## 3. OVERALL COSTS AND CHARGES

Costs & Charges		Description	Amount
<b>Costs and associated charges charged for the investment service(s) and/or ancillary services</b>			
On-going charges	N/A	N/A	N/A
One-off charges	Minimum fees	A minimum fee will be charged when the total trading commissions in a given month are lower than the pre-agreed minimum fee.	Variable, depending on the setup
<b>Costs and associated charges related to the financial instrument</b>			
One-off charges	Spreads	Spread is the difference between the Bid price (selling price) and the Ask price (buying price) and reflects, in part, the spreads of the underlying exchange where the underlying instrument is traded on. Our spreads are variable and are built into the buy/sell prices we offer.  This cost is realized every time you open and close a trade. As spreads are variable, the amount may be different when opening and closing a trade. Our spread value is constantly changing based on current market conditions and volatility.	Variable
	Commissions	We charge a commission when you enter or exit a trade.	See Appendix A for further details
On-going charges	Overnight Rollover (Swap Fee – Daily Financing)	We charge or credit you with overnight fees for facilitating you to maintain an open Buy or Sell position on CFDs. These are ongoing fees / credits for as long as you have open trades with us (holding a trade open overnight).	See Appendix B for further details
Other costs related to transactions	Currency conversion fee	Currency conversion fees (Foreign exchange costs) will apply only when your account currency is different than the quoted currency of the underlying asset being traded. The fee will be reflected as a percentage of the conversion rate used. This will affect any conversions made on the Used Margin, Profit and Loss, overnight swap (Swap Fee) etc.	The Currency conversion fee (Foreign exchange costs) will not be higher than 0.25%.

**Note:** We do not charge fees when processing deposits and/or withdrawals. There may be charges applied depending on the financial institution through which you choose to fund your account with us.

## APPENDIX A - COMMISSIONS

### 1. Rolling contracts - Forex, NDFs and Commodities

- **Nominal Commissions**

- The formula applied is the following:

$$\text{Traded Amount} * \text{Traded rate} * \text{Commission rate} / 1,000,000.00 = \text{Nominal Commission}$$

Example:

Traded Amount: 275,000.00 EURNOK

Traded rate: 11.8214

Commission rate: 10 USD

$$275,000.00 * 11.8214 * 10 / 1,000,000.00 = 32.51 \text{ NOK} = \text{Nominal Commission}$$

(Note that commission fees are rounded up to the second decimal place. In this case, rounded up from 32.50885 NOK)

- **Notional Commissions**

- The formula applied is the following:

$$\text{Traded Amount} * \text{Commission rate} / 1,000,000.00 = \text{Notional Commission}$$

Example:

Traded Amount: 275,000.00 EURNOK

Traded rate: 11.8214

Commission rate: 10 USD

$$275,000.00 * 10 / 1,000,000.00 = 2.75 \text{ USD} = \text{Notional Commission}$$

- **PIP Commissions**

- The formula applied is the following:

$$\text{Traded Amount} * \text{Commission rate} = \text{PIP Commission}$$

Example:

Traded Amount: 275,000.00 EURNOK

Traded rate: 11.8214

Commission rate: 0.1 Pips (0.00001)

$$275,000.00 * 0.00001 = 2.75 \text{ NOK} = \text{PIP commission}$$

## 2. Contracts for Difference (CFDs)

- **PIP commissions**
  - The formula applied is the following:

$$\text{Traded Amount} * \text{Commission rate} = \text{PIP Commission}$$

Example:

Traded Amount: 20 Contracts of 100GBP

Traded price: 8532

Commission rate: 0.01 Pips

$$20 * 0.01 = 0.2 \text{ GBP} = \text{PIP Commission}$$

- **Standard commissions**
  - The formula applied is the following:

$$\text{Traded Amount} * \text{Traded price} * \text{Commission rate} = \text{Standard Commission}$$

Example:

Traded Amount: 5 Contracts of D30EUR

Traded Price: 21369

Commission rate: 0.0004 %

$$20 * 21369 * 0.0004\% = 1.71 \text{ EUR} = \text{Standard Commission}$$

(Note that commission fees are rounded up to the second decimal place. In this case, rounded up from 1.70952 EUR)

- **Per unit commissions**
  - The formula applied is the following:

$$\text{Traded Amount} * \text{Commission rate} = \text{Per unit Commission}$$

Example:

Traded Amount: 20 shares of Amazon

Traded price: 242.40

Commission rate: 0.03 USD per share

$$20 * 0.03 = 0.6 \text{ USD} = \text{Per unit Commission}$$

## APPENDIX B – OVERNIGHT ROLLOVERS (SWAP CHARGES)

**Note:** The calculation methodology of the overnight rollover (swap fee) charge varies according to the type of asset to which it applies. Moreover, the amount of the overnight swap (swap fee) charge will vary between different assets as it is linked to interest rates related to each asset and in addition to an extra financing charge defined by us.

### 1. Rolling contracts - Forex, NDFs & Commodities

Swap rates are updated daily and can be found via the Finalto BackOffice Swap Rates report.

Please see the following general example explaining how rollovers are calculated for Forex and Commodities products.

The swap rates applicable to this example are below:

Instrument	EoD Rate	Decimals		Pips	
		Short	Long	Short	Long
GBPUSD	1.674489	-0.0000361	0.0000121	-0.361	0.121
EURUSD	1.317200	0.0000662	0.000101	0.662	1.01

At End of Day (EoD) we have the following example open positions:

-3,476,000 GBPUSD

5,962,000 EURUSD

#### Roll steps - SHORT position:

#### Roll steps - LONG position:

##### 1) Close position – BUY

Rate = EoD rate - swap rate

Rate = 1.674489 - (-0.0000361) = 1.6745251

The short position - 3,476,000 GBPUSD will be closed (BUY) at rate 1.6745251 at EoD

##### 1) Close position - SELL

Rate = EoD rate - swap rate

Rate = 1.317200 - (0.000101) = 1.317099

The long position 5,962,000 EURUSD will be closed (SELL) at rate 1.317099 at EoD

**2) Open position - SELL**

Rate = EoD rate

Rate = 1.674489

The position - 3,476,000 GBPUSD will be re-opened (SELL) at rate 1.674489 at EoD

**Cost of rollover – SHORT position**

Rollover cost = dealt amount x (sell rate - buy rate) x no. days rolled

Rollover cost = 3,476,000 x (-0.0000361) x 1 = -125.48 USD

**2) Open position - BUY**

Rate = EoD rate

Rate = 1.317200

The position 5,962,000 EURUSD will be re-opened (BUY) at rate 1.317200 at EoD

**Cost of rollover – LONG position**

Rollover cost = dealt amount x (sell rate - buy rate) x no. days rolled

Rollover cost = 5,962,000 x (- 0.000101) x 1 = - 602.16 USD

**2. Indices CFD & Cryptocurrency CFD**

Indices CFD and Cryptocurrency CFD Financing costs are updated daily and can be found via the Finalto BackOffice CFD Costs report.

Please see the following example explaining how financing costs are calculated for CFD products (including indices and cryptocurrencies).

The swap rates applicable to this example are below:

Instrument	EoD rate	Short	Long
U30USD	2,743.32	0.024	-0.306
100GBP	6,980.24	-0.19	-0.65

At End of Day (EoD) we have the following example open positions:

-5 U30USD

7 100GBP

**Roll steps - SHORT position:**

**Roll steps - LONG position:**

**1) Close position - BUY**

Rate = EoD rate

Rate = 2,743.32

**1) Close position - SELL**

Rate = EoD rate

Rate = 6,980.24

The short position – 5 U30USD will be closed (BUY) at rate 2,743.32 at EoD

The long position – 7 100GBP will be closed (SELL) at rate 6,980.24 at EoD

**2) Open position - SELL**

Rate = EoD rate

Rate = 2,743.32

The position – 5 U30USD will be re-opened (SELL) at rate 2,743.32 at EoD

**Cost of rollover – SHORT position**

Rollover cost = dealt amount x short cost x no. days rolled

Rollover cost = 5 x 0.024 x 1 = 0.12 USD

**2) Open position - BUY**

Rate = EoD rate

Rate = 6,980.24

The position – 7 100GBP will be re-opened (BUY) at rate 6,980.24 at EoD

**Cost of rollover – LONG position**

Rollover cost = dealt amount x long cost x no. days rolled

Rollover cost = 7 x (-0.65) x 1 = - 4.55 GBP

**3. Equities CFD and ETFs CFD**

Positions on Equity and ETF CFDs will be subject to a financing cost.

The Financing costs for these instruments are updated daily and can be found via the Finalto BackOffice CFD Costs report.

Please see the following examples explaining how financing costs are calculated for CFD products on Equities and ETFs:

Instrument: FTNT.xnas

Amount held overnight: 285 shares (long position)

EoD rate: 9.485

Financing Cost: Long positions: -0.01765418/ Short positions: 0.00878001

Amount held overnight x Long position = **Cost of financing**

**Cost of financing:** 285 x (-0.01765418) = -5.04 USD (rounded up from -5.0314413 USD)

Instrument: CBK.xetr

Amount held overnight: 140 shares (short position)

EoD rate: 23.525

Financing Cost: Long positions: -0.01021946 / Short positions: 0.00041737

Amount held overnight x Short position = **Cost of financing**

**Cost of financing:** 140 x (0.00041737) = 0.06 EUR (rounded up from 0.0584318 EUR)
