

Index CFDs

Wide range of indices

The world's markets,
your way.

Finalto

Index CFDs

Wide range of indices

Finalto offer 13 index CFDs in a wide range of geographies including the US, UK, Europe, India, HK, China, Japan and Australia.

Institutional grade liquidity

We offer incredible liquidity at Top of Book and depth sourced from institutional calibre Liquidity Providers who operate an institutional market making model (i.e. not B Book). Typically, this allows us to manage different types of flow to great benefits of the client.

Execution

Finalto's unique combination of powerful technology platforms, global footprint and depth of liquidity means we are able to deliver incredibly fast execution typically sub 5 ms. We allow to trade in incremental sizes of 0.01 on most indices.

Favourable margin rates

Leveraged trading with margin rates for most indices at 1%.

Instrument		Max Decimals	Full Pip	Min Tick Size	Min Trade Size
100GBP	<i>FTSE 100 Index</i>	2	0	0.1	0.01

The information provided here is for general information only. Our offering includes products that are traded on margin and carry a high degree of risk to your capital. It is possible to incur losses that exceed your initial investment. You should ensure that you fully understand the risks involved and seek independent advice if necessary. Any information provided shall not be construed as investment advice and has been prepared without taking your individual objectives and financial situation into account. CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.
