

ClearVision

The world's markets,
your way.

Finalto

ClearVision

ClearVision delivers an integrated ecosystem for liquidity management, client onboarding, risk monitoring, and multi-asset trading. Designed for professional traders and institutions, it combines advanced technology, real-time data, and flexible connectivity to streamline operations, enhance decision-making, and optimise market access across desktop, web, and mobile platforms. Compatible with platforms including MT5, Euronext, CBOE, Integral, Currenex, PrimeXM, Gold-i Matrix, YourBourse, Centroid FXCubic and oneZero.

Liquidity & Risk Management

Enables users to optimise liquidity and risk across multiple sources and clients.

- Aggregate and manage multiple liquidity streams
 - Customise liquidity per group or by client
 - Control pricing, terms and account structures
 - Set margins, NOP limits, and liquidation rules and alerts
 - Apply automated hedging strategies (manual, percentage or aggregation)
 - Create advanced booking rules to manage client flow
-

Advanced Client Management Platform

Comprehensive client setup, account management, and reporting.

- Secure cloud-based remote access
- Create, modify, and maintain client accounts
- Efficient deposit and withdrawal processing
- Assign clients to specific price groups
- Use templates for rapid onboarding of multiple clients
- Ensure compliance with high security and audit trails
- Access advanced reporting and detailed statements

Real-Time Risk Monitoring & Management

Live visibility and control over client and hedge risk exposures.

- Monitor client and hedge exposure in real time
 - Consolidate and manage multiple risk books seamlessly
 - Leverage business intelligence to identify trading patterns
 - Access real-time account data: P&L, pricing, margin utilisation
 - Handle risk across multiple geographic locations (LD4, NY4, TY3)
-

User-friendly trade allocation tool

Post-trade tool to manage allocation of trades at a click.

- For funds, money managers & professional clients
 - PAMM post-trade allocation
 - Set risk parameters, equity allocation or daily P&L
 - Support for Fund Manager income allocation
 - Security and permissions
-

Seamless integration tool

Providing access to trading through our secure API.

- Integrate your existing back-office systems with Finalto
- Extract client activity, including trades, cash activities, balances & EoD margin requirements

Front-End Platforms

Our trading platforms are available to all Finalto registered clients, at no additional charge, or as an alternative White Label suite.
